| Project Name | Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau | |
| Maximum Marks | 2 Marks | |

Problem-Solution Fit

The Problem:

Real estate analysts and decision-makers at ABC Company are overwhelmed by large, unstructured housing datasets. They struggle to identify how renovations and house features like bathrooms, bedrooms, and floors influence sale prices. Manual analysis through spreadsheets is slow, inefficient, and leads to delayed or unclear insights.

The Solution:

A Tableau-based interactive dashboard that visually presents key metrics such as average sale prices, renovation impact, and feature-wise house age distribution. Built using Tableau Prep for clean and accurate data, the dashboard simplifies complex data into easy-to-understand visuals and supports fast, data-driven decision-making.

Why It Fits:

The solution solves the exact pain point: turning raw data into actionable insights. It matches users' workflows, saves time, improves accuracy, and empowers ABC Company to make confident real estate investment decisions.

Purpose:

- To simplify complex housing data and make it accessible to non-technical users.
- To reduce time spent on manual analysis and increase efficiency.
- To help users quickly spot patterns and make strategic, data-driven decisions.
- To replace static reports with dynamic, shareable visualizations.
- To ensure ABC Company can track, interpret, and respond to housing market trends in real time.

| 1. CUSTOMER SEQMENT(S) Young professionals, unive sity students, newly married couples, small familles relocating to CS | Customer constraints Limited monthly budget for rent, naalee soure physical dacertsts Lack of time for physical house visits. Limited knowledge about safe or ideal neighborhoods No personal transportation to explore distant rental options | |
|---|--|---|
| 2. JOBS TO-BE DONE / PROBLEMS • Find a mentahome that matches budget/preerrel location • Ensure the propetty is sats, clean, and conets basic living standards | 9. PROBLEM ROOT CAUSE • Scattered and unverified renal data across platforms • Time-consuning manual process exaggerate or mispresent • Landlords and agents often sagerate or misrepresent properties | 7. BEHAVIOUR • Relying on friends or relatives in the area • Speholng weekends visiting neighborhoords • Joining racebook groups or Telegram rental boards ururgency |
| 3. TRIGGERS (TR) • Stariing a new job or semester in a new city • Lease termination or rising corrent rent • Need for a safet, quieter. or mo/e epacious place | 10. YOUR SOLUTION A mobile-first platforn that aggregating verified rental listings with virtual fours, price comparisons, neighborhood safety scores, and tenant reviews. Filters by budget, location, commute distance, and amenities | |
| 4. EMOTIONS: BEFORE / AFTER Before: Overwhelmed, uncertin, an sus about traud or poor fiving conditions DEFOME: CONFIDENT AF JIFTER Before: Confident, relieved, excitze about fraud or poor living conditions | 8. YOUR SOLUTION 8.1 ONLINE Rental platforms, Google Maps reviews, social media searches, WhatsApp groups 8.2 OFFLINE Local broker visits, posters on notice | 8. CHANNELS OF BEHAVIOUR 6.1 ONLINE Rental platforms Google Maps reviews. social media searchies, WhatsApp groups Local broker visits, posters on notice boards, referrals frot friends |
